AMERICAN

CHEMICAL JOURNAL

EDITED BY

IRA REMSEN

PROFESSOR OF CHEMISTRY IN THE JOHNS HOPKINS UNIVERSITY.

VOL. 7. 1885-86.

BALTIMORE: THE EDITOR.

ISAAC FRIEDENWALD, PRINTER,
103 W. Fayette St.

CONTENTS VOL. VII.

No. 1.

	PAGE
On the Action of Aldehydes and Ammonia on Benzil. By Francis R. Japp and Samuel C. Hooker,	1
On Condensation Compounds of Benzil with Ethyl Alcohol. By Mary E. Owens and Francis R. Japp,	16
On a Scheme for the Qualitative Determination of the Bases without Hydrogen Sulphide. By George S. Eyster,	21
Valuation of Acetate of Lime. By A. A. Blair,	26
Notes on the Absorption Spectrum of Nitrogen Peroxide. By L. Bell,	32
Spectroscopic Determination of Lithium. By L. Bell,	35
Contributions from the Sheffield Laboratory of Yale College:	
XXII. *Influence of Bile, Bile Salts and Bile Acids on Amylolytic and Proteolytic Action.* By R. H. Chittenden and Geo. W. Cummins,	36
A Method of Determining the Value of Zinc Dust. By H. N. Morse,	52
Two Forms of Apparatus which Facilitate the Correct Reading of Gas-Volumes over Water. By H. N. Morse,	58
An Apparatus for the Purification of Mercury by Distillation in a Vacuum. By H. N. Morse,	60
Some Experiments on the Relation of Antiseptic Power to Chemical Constitution. By J. R. Duggan,	62
On Some Properties of Phenylsulphonacetic Ethers. By Arthur Michael and George M. Palmer,	65
Note on the Constitution of the Addition-Product of Chlorhydric Acid to Ethylcyanide. By Arthur Michael and John F. Wing,	71

No. 2.

The Post-Mortem Imbibition of Arsenic. By Frank S. Sutton,	75
A Method of Filtration by Means of Easily Soluble and Easily Volatile Filters. By F. A. Gooch,	87
Electrolysis of Molybdenum Solutions. By Edgar F. Smith and W. S. Hoskinson,	90

T193

On the Detection of Adulterations in Oils. By Oscar C. S. Carter, ... 92
On the Unit Used in Calculating the Atomic Weights. By Lothar Meyer and Karl Seubert, ... 96
The Atomic Weight of Silver and Prout's Hypothesis. By Lothar Meyer and Karl Seubert, ... 104
Eyster's Scheme for Qualitative Analysis. By Robert B. Warder, ... 110
Estimation of Arsenic in Ores, Mattes and Metallic Copper. By G. W. Lehmann and W. Mager, ... 112
Minor Investigations. By L. M. Norton, ... 114
The Optical Properties of Malic and Tartaric Acids. By Louis Bell, ... 120

REVIEWS AND REPORTS.

Report on Analytical Chemistry, ... 129
The Manufacture of "Acid" Phosphates, ... 135
The Composition and Examination of the Commercial Sulphate of Quinine, ... 138

NOTES.

Method for Rapid Estimation of Urea (F. C. R.), 142. Note on the Determination of Carbon Monoxide (E. H. R.), 143. On the Solubility of the Sulphides of Copper and Zinc in Melting Potassium Sulphide, and on their Insolubility in Melting Sodium Carbonate and Nitrate (Edo Claassen), 144.

No. 3.

On the Oxidation of Benzene Derivatives with Potassium Ferricyanide. II. By W. A. Noyes, ... 145
Oxidation of Meta-Nitro-Toluene. By W. A. Noyes and W. E. Moses, ... 149
On Benzoylacetic Acid and some of its Derivatives. By W. H. Perkin, ... 153
Notes of Work from the Chemical Laboratory of the University of Virginia:
121.—*On a Platinum Silicide.* By C. G. Memminger, . . 172
122.—*Analysis of a Beryl from Amelia C. H., Amelia Co., Va.* By R. W. Baker, ... 175
123.—*Analysis of Allanite from Nelson Co., Va.* By C. G. Memminger, ... 177
124.—*On a Composition Product of Allanite, a Variety of Kaolinite from Nelson Co., Va.* By E. P. Valentine, 178
125.—*Analysis of a Fibrous Bi-silicate from Nelson Co., Va.* By L. G. Patterson, ... 180
126.—*On a Chlorite from Albemarle Co., Va.* By M. Bird, . 181

On the Decomposition of Cinchonine by Sodium Ethylate. By Arthur Michael, ... 182
On Simultaneous Oxidation and Reduction by means of Hydrocyanic Acid. By Arthur Michael and George M. Palmer, ... 189
On the Action of Alkyl Iodides on Amido Acids. By Arthur Michael and John F. Wing, ... 195

REVIEWS AND REPORTS.

Recent Researches on the Pyridine and Quinoline Bases. By E. H. Keiser, ... 200

No. 4.

Researches on the Complex Inorganic Acids. By Wolcott Gibbs, M. D., ... 209
Contributions from the Laboratory of Agricultural and Analytical Chemistry, Cornell University:
II. *Marchand De Fecamp's Method for the Determination of Fat in Milk.* By G. C. Caldwell and S. W. Parr, . 238
III. *A Test of Certain Methods for the Estimation of the several Albuminoids in Cow's Milk, and of the Influence of the Food on the Relative Proportions of these Albuminoids.* By S. W. Parr, ... 246
IV. *Some new Qualitative Methods.* By Fred. A. Holton, . 249
On Benzoylacetic Acid and some of its Derivatives. II. By W. H. Perkin, Jr., ... 251
On Resacetophenone. By Arthur Michael and George M. Palmer, 275
On Inactive Aspartic Acid. By Arthur Michael and John F. Wing, ... 278

REVIEW.

Ostwald's "Lehrbuch der Allgemeinen Chemie," 281

No. 5.

The Separation of Titanium and Aluminum, with a Note on the Separation of Titanium and Iron. By F. A. Gooch, 283
A New Method for the Determination of Phosphorus in Iron and Steel. By J. B. Mackintosh, ... 296
On the Determination of Diastatic Action. By J. R. Duggan, 306
Researches on the Complex Inorganic Acids. By Wolcott Gibbs, M. D., ... 313

SOME EXPERIMENTS ON THE QUANTITATIVE EFFICIENCY OF THE MARSH-BERZELIUS METHOD FOR THE DETECTION OF ARSENIC. By W. P. Headden and B. Sadler, Jr., ... 338

CONTRIBUTIONS FROM THE CHEMICAL LABORATORY OF HARVARD COLLEGE:

XLVI. *On the Action of Chromic Superfluoride on Benzoic Acid.* By C. Loring Jackson and George T. Hartshorn, ... 343

NOTES ON THE EXTRACTION OF VANADIUM FROM MAGNETITE; ON THE CONDUCT OF SEVERAL COMPOUNDS OF VANADIUM TOWARDS REAGENTS; ON ITS QUANTITATIVE DETERMINATION; AND ITS SEPARATION FROM CHROMIUM. By Edo Claassen, ... 349

NOTES.

Valence of Phosphorus (W. C. D.), 354. On the Qualitative Detection of Mercuric Compounds (J. Torrey), 355. The First Work in Pure Chemistry in America, 356.

No. 6.

ON BENZOYLACETIC ACID AND SOME OF ITS DERIVATIVES. III. By W. H. Perkin, Jr., ... 357

ON THE DETERMINATION OF ARSENIC. By LeRoy W. McCay, . 373

RESEARCHES ON THE COMPLEX INORGANIC ACIDS. By Wolcott Gibbs, M. D., ... 392

CONTRIBUTIONS FROM THE CHEMICAL LABORATORY U. S. DEPARTMENT OF AGRICULTURE:

V. *On the Estimation of Acetic Acid in Liquids Containing Organic Matter, by Distillation.* By H. W. Wiley, . 417

VI. *An Examination of Whiskies.* By Clifford Richardson, 425

NOTES.

On "Explosive Ice" (J. W. Mallet), 428. A Gas-Absorption and Measuring Tube (W. H. Greene, M. D.), 429. Wöhler-Monument, 429.

Recent Publications, ... 430

INDEX VOL. VII, ... 433

INDEX VOL. VII.

PAGE

ACETATE of lime, valuation o 26
Acetic acid in liquids containing organic matter, on the estimation of, by distillation . 417
Acids and alkalies, influence on diastatic action 309
Albuminoids in cow's milk, a test of certain methods for the estimation of . . . 246
" the influence of the food on the relative proportions of in cow's milk . 247
Aldehydes and ammonia, action on benzil 1
Alkalies, influence on diastatic action 309
Alkyl iodides, action on amido acids 195
Allanite from Nelson Co., Virginia, analysis of 177
" on a decomposition product of 178
Allyl acetophenone, action of bromine on 171
Alumino-molybdates 410
Aluminum and titanium, separation of 283
Amido acids, action of alkyl iodides on 195
Ammonium, a new reagent for 133
Analysis, qualitative, Eyster's scheme for 110
" " without hydrogen sulphide 21
Analytical chemistry, report on 129
Aniline, action of isobutyric acid upon 116
Antimonoso-molybdates 328
" tungstates 325
Antimony, a new method for the qualitative separation of tin and arsenic from . 133
Antiseptic power, some experiments on the relation of to chemical constitution . 62
Apparatus for the purification of mercury by distillation in a vacuum 60
" which facilitate the correct reading of gas volumes over water, two forms of 58
Arsenic, a new method for the qualitative separation of tin and antimony from . 133
" in ores, mattes and metallic copper, estimation of 112
" on the determination of 373
" some experiments on the quantitative efficiency of the Marsh-Berzelius method for the detection of 338
" the post-mortem imbibition of 76
Arsenio-vanadates 218
Arsenoso-molybdates 317
" tungstates 313
Aspartic acid, on inactive 278
Atomic weight of silver, and Prout's hypothesis 104
" weights, on the unit used in calculating the 96

BAKER, R. W. Analysis of a beryl from Amelia C. H., Amelia Co., Virginia . . 175
Bardwell, F. L. See *Norton, L. M.*
Bases, on a scheme for the qualitative determination of without hydrogen sulphide . 21
Bell, L. Notes on the absorption spectrum of nitrogen peroxide 32
" Spectroscopic determination of lithium 35
" The optical properties of malic and tartaric acids 120
Benzene derivatives, oxidation of with potassium ferricyanide 145
Benzil, action of aldehydes and ammonia on 1
" on condensation compounds of with ethyl alcohol 16
Benzile, action of alcoholic hydrocyanic acid on 190

Benzoic acid, on the action of chromic superfluoride on 343
" aldehyde, action of hydrocyanic acid on 193
Benzoin, action of alcoholic hydrocyanic acid on 193
Benzol, oxidation of 114
Benzoquinone, action of hydrocyanic acid on 192
Benzoyl-acetic acid and some of its derivatives 152, 251, 357
Beryl from Amelia C. H., Amelia Co., Virginia 175
Bile, bile salts and bile acids, influence on amylolytic and proteolytic action . . . 36
Bird, M. On a chlorite from Albemarle Co., Virginia 181
Bisilicate from Nelson Co., Virginia, analysis of a 180
Blair, A. A. Valuation of acetate of lime 26
Bromine and chlorine, a method for the quantitative separation of 129
" " iodine, separation of 249

CADMIUM. A new method for the separation of from copper 134
Caldwell, G. C., and *Parr, S. W.* Marchand de Fecamp's method for the determination of fat in milk 238
Carbon monoxide, note on the determination o 143
Carter, O. C. S. On the detection of adulterations in oils 92
Chase, R. L. See *Norton, L. M.*
Chemical constitution, some experiments on the relation of antiseptic power to . . 62
Chemistry, pure, first work in Am 356
Chittenden, R. H., and *Cummins, G. W.* Influence of bile, bile salts and bile acids on amylolytic and proteolytic action 36
Chlorine and bromine. A method for the quantitative separation of 129
Chlorite from Albemarle Co., Virginia 181
Chromic acid, test for 250
" superfluoride, action on benzoic acid 343
Chromium, separation of vanadium from 349
" test for 250
Cinchonine, on the decomposition of by sodium ethylate 182
Claassen, Edo. Notes on the extraction of vanadium from magnetite, etc. 349
" " On the solubility of the sulphides of copper and zinc in melting potassium sulphide, and on their insolubility in melting sodium carbonate and nitrate 144
Cobalt and nickel, separation of 134
Copper and cadmium. A new method for the separation of 134
" and zinc, on the solubility of the sulphides of in melting potassium sulphide . 144
" estimation of arsenic in 112
Cummins, G. W. See *Chittenden, R. H.*

DIASTATIC action, on the determination of 306
Duggan, J. R. On the determination of diastatic action 306
" Some experiments on the relation of antiseptic power to chemical constitution 62

ELECTROLYSIS of molybdenum solutions 90
Ethyl alcohol. On condensation compounds of benzil with 16
" cyanide, note on the constitution of the addition-product of chlorhydric acid to . 71
" iodide, action on potassium paramido-benzoate 198
" orthotoluidines, the 118
Eyster, G. S. On a scheme for the qualitative determination of bases without hydrogen sulphide 21
Eyster's scheme for qualitative analysis 110

FAT in milk, Marchand de Fecamp's method for the determination of 238
Filtration by means of easily soluble and easily volatile filters 87
Food, influence of on the relative proportions of albuminoids in cow's milk . . . 247

GAS absorption and measuring tube 429
" volumes, two forms of apparatus which facilitate the correct reading of . . 58
Gibbs, Wolcott. Researches on the complex inorganic acids 210, 313, 392
Gooch, F. A. A method of filtration by means of easily soluble and easily volatile filters 87
" The separation of titanium and aluminum, with a note on the separation of titanium and iron 283
Greene, Wm. H. A gas-absorption and measuring tube 429

HARTSHORN, G. T. See *Jackson, C. L.*
Holton, F. A. Some new qualitative methods 249
Headden, W. P. and *Sadler, B., Jr.* Some experiments on the quantitative efficiency of the Marsh-Berzelius method for the detection of arsenic 338
Hooker, S. C. See *Japp, F. R.*
Hydrocyanic acid, on simultaneous oxidation and reduction by means of 189

ICE, explosive 428
Iodine and bromine, separation of 249
Iron, a new method for the determination of phosphorus in 296
" note on the separation from titanium 294
Isobutyric acid, action of upon aniline 115

JACKSON, C. L. and *Hartshorn, G. T.* On the action of chromic superfluoride on benzoic acid 343
